

To whom it may concern:

I am writing a recommendation for Mr. David G. Schertzing Builders, Inc. The decision to invest in finishing my walkout basement in my condominium was an easy decision after I met Dave. I took three bids on the construction of finishing my home. Although Dave was not the cheapest bid I received, he certainly was the most reliable and personable contractor I have ever worked with. I have built three homes over the last 22 years and I can honestly tell you that Dave has been the only contractor to continually communicate with me on the progress of the project without me having to ask. Dave was always willing to listen and implement any modifications without adding extra costs or include change orders for every little item. Most importantly were the sub-contractors showing their professionalism that came into my home. They were considerate of the existing part of my home and went out of their way to keep the construction area very clean when they left for the day.

Dave's commitment to detail in linking with the customer, the dedication to see a project to completion, and treating me with the utmost respect are the greatest attributes for Dave to continue in his business.

I would recommend Dave G. Schertzing Builders to anyone that discusses with me about building or remodeling. Should you have any questions or need any information please feel free to call me.
