RE: Basement Remodeling Project

Dear Mr. Schertzing:

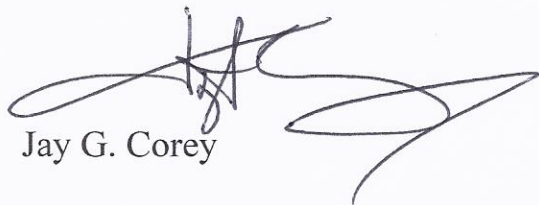

I wish to thank you for the excellent remodeling project to our basement which you recently completed at our residence.

Both Mary and I were more than satisfied at the finished project which was completed on a timely basis, and in a professional manner. We were especially pleased that every time you left our residence, everything was cleaned up and taken care of prior to your leaving each time.

We were also pleased with your professionalism I answering our questions as the project continued, and your suggestions to complete this remodeling which added to the project itself.

I would highly recommend you to anyone and will certainly use you again in any future remodeling or construction projects that I consider in the future.

Sincerely,

Jay G. Corey
