

To: David G. Schertzing Builders, Inc.

Re: Letter of Recommendation

We are so thankful we contracted with David Schertzing to do our remodel. He was very patient and flexible as our planning stage took longer than expected and we had to alter our plans and priorities a few times over many months. We knew there was no telling what we would find as we were connecting the addition to the part of the house that was over 100 years old. It was getting late in the season and we couldn't afford any delays or surprises. Dave said what he was going to do and then did it. The workers did a great job and we weren't nicked and dined as the old house was exposed and we discovered quirks. They were able to adapt and keep moving ahead in a timely fashion.

We are so pleased with our modern and spacious addition. It was a pleasure working with Dave from looking over the first plans to the final walk-through.

Sincerely,

Mike & Beckie Curtis
