

To Whom It May Concern,

I would like to take this opportunity to offer my strong recommendation and endorsement of Mr. David G. Schertzing, as you consider a builder for your new home, remodeling needs, or any construction project. I have known Dave for over 25 years and in that time he has built two homes for me in the mid-Michigan area.

Each time it was very enjoyable to work with Dave through the planning and construction process, which resulted in a quality built home, and a sound investment on my part.

I was very impressed with Dave's planning, organization and supervision of the construction of my homes from start to finish along with; the quality of the materials and sub-contractors used.

Because of Dave's integrity, commitment to quality construction and customer satisfaction; I know he will listen to you and work with you to achieve your construction goals.

With over 30 years of construction experience, Dave is a well respected leader in the mid-Michigan construction industry, who has built hundreds of homes in many of the area's finest neighborhoods.

I hope that you too make David G. Schertzing your builder on your next construction project.

Sincerely,

Joseph Hanley,
Okemos, Michigan
