To Whom It May Concern:

I am the owner of a full-service interior design business in the Greater Lansing, Michigan area. My company designs, fabricates materials, consults on new-builds and works with builders on remodels for homes and businesses. The latter is how I originally met David Schertzing of David G. Schertzing Builders, Inc.

As a result of working with David on remodeling projects for my clients, and after seeing the quality work he provided, I also hired him to build a four-season room onto my own home. What a delightful experience! David was always available, by phone or e-mail, he immediately went to work on plans and costs, and was extremely helpful with ideas of his own in areas of design and cost cutting. Beyond these attributes, he is also an experienced master carpenter, and handled all woodworking tasks with skill and ease, and with a big smile.

The subcontractors that David G. Schertzing Builders, Inc uses are, without exception, excellent! David was very willing to share their names and phone numbers with me and my clients, which is not always the case with other contractors. I was amazed when I saw the finished 'paint job' on walls and trim..... the trim was as smooth as glass. Also, David and his subs thoroughly cleaned up the construction areas each day before they left the job.

David always stands behind his work. There was a problem with one of the windows in my new room. He first sent out a repairman from the wholesaler to look at it, and then stopped out himself, and on the spot, ordered a new window. This alone, when dealing with my clients is one of the best recommendations for using David G. Schertzing Builders, Inc.

Finally, I will continue to use David's services, and recommend him to my clients. I consider myself fortunate to be able to work with a man who has ability, integrity and reliability.

Sincerely, Judy Reilly-Shaw (1/15/10)
