

January 2015

To prospective client:

It has been over six months since our 3 Seasons Room was completed. We still frequently marvel at how much we love the room. Even before we hired Dave, he went over and beyond, in evaluating another section of our house. Dave took great care in every step of the project.

As we were planning the room, he made suggestions to enhance our ideas and worked with us along the way to make sure he delivered what we were imagining.

We also appreciated how reachable and approachable he was for questions throughout the project. Even with weather setbacks, the project moved forward and stayed on track.

We are happy for you to contact us in order to find out more about our experience.
