

June, 2016

Dear Dave,

Tim and I are both so pleased with the beautiful job you did on our kitchen remodel. The kitchen turned out exactly the way we wanted it, and the experience was stress free. We knew we had chosen the right contractor when everyone from the electricians to the plumbers to the dry wallers and painters ALL told us how lucky we were to have Dave Schertzing as our builder. They have great respect for you and the work you do.

All building projects have glitches, but we soon realized that whatever the issue, you would be able to come up with a good solution. This made our project fun and rewarding. Whenever we called or emailed, you were always quick to respond. It was obvious that your years of experience play a role in your success. The ideas and recommendations you gave us worked out well, and we are enjoying our new kitchen.

You and the people you brought into our home to work were considerate and took great care to clean the area at the end of each day. You kept careful account of all money spent with an itemized record. You estimated that the remodel would take about five weeks, and it was completed in five weeks. You were professional in all aspects of the project, and we couldn't be happier with the experience and the results.

If we plan another project in our home, you will be our first call. We are happy to recommend you to anyone considering building or remodeling.

Thanks so much,

Tim and Marie Konieczny
