

Hi Dave,

A real heartfelt thank you for your partnering with us as our contractor to make our dream come true of having a totally new, from-the-studs-up kitchen and dining room combination. Our 115 year-old house retained its character and we stayed within our budget. You have a terrific team of professionals who know their trade and followed your example and expectation of high-quality work plus keeping the workspace clean when each day's work was done. Removing and moving walls and windows and floors and then arranging for the finishing of all surfaces according to our plans and specifications could not have been less stressful. Your regular communication with us and your trades' people, your many on-site visits and experienced suggestions and solutions were more than appreciated. We highly recommend you and your work. We could not be more pleased. Thank you and please do feel free to stop by whenever you are in the neighborhood.

With highest and best regards,

Bill and Bev Maier
DeWitt, Michigan
