

Dave, A quick thank you for our new shower. The common comment we get is, "it looks like something you'd see in a luxurious hotel". Who wouldn't want to hear comments like that! I appreciate the great people that you had us work with during the remodel. It goes way beyond the quality of their workmanship, they were high quality people that sincerely cared about what the customer needs/wants. A year ago we had new floors put in and we're pleased with the flooring but the finish work was very disappointing. It takes away from the whole improvement. The finish work in our bathroom is just the opposite, we really couldn't be more pleased with the detail that you went to complete the project. All of your suggestions and ideas helped guide us in the direction we finally chose and we're grateful for the that.

We wouldn't hesitate to recommend you to anyone (and we already have) considering a remodeling project for their home. Your work was outstanding.

Steve and Lisa McAlvey
