

To whom it may concern:

The best decision I ever made was having David G. Schertzing Builders, Inc. build my new home while I was wintering in Florida this past year. I would tell people what I was planning to do, and they could not believe it, that I would actually be “away” the entire time my home was being built. I would not have made this decision if it wasn’t for the fact that David had already demonstrated his capability when he built my last home. David Schertzing was completely in charge of every building phase of my new home. I knew I could totally trust David to do a GREAT job without me being here in Michigan.

I cannot put it into words how much I love my new home. I told him that I was looking for a “retirement” home that would be easy for me to maintain. After working with his architect, he found the perfect plan for me; 3 bedrooms with the privacy of the Master Suite on the opposite side of the living area. David then accompanied me, helping me choose everything in advance. It gave me comfort to leave Michigan and head to Florida in November, knowing that my home would be completed upon my return. David called me a couple of times just to make sure we were “on the same page” when it came to making a few changes; he also sent pictures.

I was so blown away when I returned home and entered my new home!!! My home was everything I had envisioned it would be and more!

If you would like to see my home or talk to me about my positive experience, please contact David and we will schedule a walk-through.
