Dear Dave,

We love the work you did to bring our 1978 recreation room into the 21st century!

The media center, custom cabinetry, and new fireplace surround all turned out beautifully. We provided a picture from a magazine only as a suggestion, never expecting this look would be so successfully replicated in our room. The quality of the custom woodwork is superb. You and your team were prompt, courteous, and kept the workplace clean. We will be comparing “before” and “after” pictures of this room, and expect to be stunned! Thank you for your professionalism, helpful ideas, and meticulous attention to detail. We will recommend you to friends and family without hesitation!

Sincerely,

Dave and Judy Schulte
