David,

Sue and I would like to thank you for the excellent job you and your construction crews did on our new sun room. We appreciated your ability to adhere to a predetermined construction schedule, and at the same time deliver excellent craftsmanship on the job. Thanks for allowing us to enhance the sun room by adding items to the job we did not incorporate in the initial plan. It was nice to have a builder who looked to our “creature comforts” while we were under construction, I cannot remember any time we were inconvenienced during construction.

It was enjoyable to interface with conscientious workers involved with this project who were willing to answer our questions, then clean up after their hard day’s work. Special thanks to Gary Slee at “Discount Carpet” he was exceptionally helpful and considerate.

We will gladly recommend your business to anybody who inquires.

A satisfied customer,

Mike & Sue Walters
Grand Ledge
