

I would like to thank Dave Schertzing for the great job he did on our home addition. Dave worked hard to coordinate the subcontractors, to keep the project clean, and to handle any issues that arose. David spent considerable time with us on the small details of the work to ensure that I was satisfied with the results. Most importantly, Dave never “cut corners” with the work and took the extra steps needed to ensure a solidly constructed finished product. I wouldn’t hesitate to call Dave when I’m ready for my next project.
