

Dear Dave,

Thank you for the fantastic job you did in executing the remodeling project in my 38 year old house. I am very pleased with the extensive work that was done both inside and outside. All of the workers that were part of the crew doing the repairs were great and were so impressed with your expertise. They were confident that there was no problem you couldn't solve.

Not having had remodeling work done in quite some time, I was somewhat apprehensive about the whole process. The work progressed as you described and everything was efficiently done as I'd hoped it would be. More importantly, you were fun to work with and eliminated what would have been a very stressful time for me. I will not hesitate to recommend David G. Schertzing Builders to any family or friends.

Gratefully yours,

Marilyn Mooney
