

Jennifer and I have worked with David Schertzing on two major, complicated remodeling projects on our home in DeWitt Twp: a down-to-the-studs kitchen remodel; and a 3-story addition. We simply cannot imagine working with any other Contractor. Everyone has a story about a “nightmare remodel.” Jennifer and I do not. David is communicative and gave regular progress and goal updates throughout each project. How responsive his subcontractors are, is a measure of who David is as a person and a professional. His practiced eye misses no detail, and our two massive projects, which could have been nerve-wracking, were instead, overwhelmingly positive and more beautiful than we envisioned. Hire David!
