

Dave Schertzing was highly recommended from friends who had hired him for multiple projects, and he did not disappoint. Our kitchen project was done efficiently and expediently. The work was beautiful. Dave expertly lined up the painters, plumbers, electricians, flooring team, etc., to make sure we stayed on our timeline and within the budget. It's tough to live without a kitchen, but we saw notable progress every week and that made it a lot easier. Dave is great at communicating and answering any and every question. Whenever there was a hiccup, he would handle it quickly. That said, there were very few hiccups in the complete gut of our kitchen.

We would enthusiastically recommend David G. Schertzing Builders, Inc. to others and will not hesitate to hire him again for future projects.
